

Mike Atherton

Mike applies his background in project management, application software, and eBusiness technologies combined with operations management experience and strategic planning skills to solving complex business problems for a broad range of clients.

In addition, he has served as an Adjunct Professor at several business schools. Most recently he developed and delivered the Brussels Special Program, a study abroad course held in Belgium for MBA students from Marymount University. Mike has conducted professional development courses and presentation on a variety of subjects including project management and communications. He has also facilitated strategic planning sessions for senior management teams.

An author of numerous articles, Mike has written on a host of business and technology related topics including Workflow Automation – The Correct Recipe for Success which appeared in “Darwin” magazine and “CIO.com” and Strategy Implementation: Closing The Management Gap which appeared in “Industrial Management” magazine. He received a BBA from the College of William and Mary and an MBA from The George Washington University.

Mike is a private pilot with an instrument rating and has flown throughout the United States on flying adventures.
